Positive effects of good sound in business areas

75% of customers **spend more money**

80% of clients **double** their **stay time**

85% of customers say music make them **feel good**

„If you drink wine from a paper cup, you can also listen to music over the mobile phone.

Dietmar Leitner

Treat your music right!

The importance of **great customer experience** leads to invest in professional playlists designed to maximize their **positive emotions and well-being**.

BUT if the sound quality is poor, this carefully selected music is perceived as **noise** and will have **negative effects**.

Your benefits

Quality sound

Perfect sound, creating an even „sound carpet“

Service & support

We're here for YOU: customized planning & consulting are guaranteed by NewTec certified dealers

User friendly

Intuitiv control for every application type - from small shops to shopping centers

Saves time & money

The 360° sound makes less speakers possible. Mounting requires a few minutes and can be done during business hours

Italian design

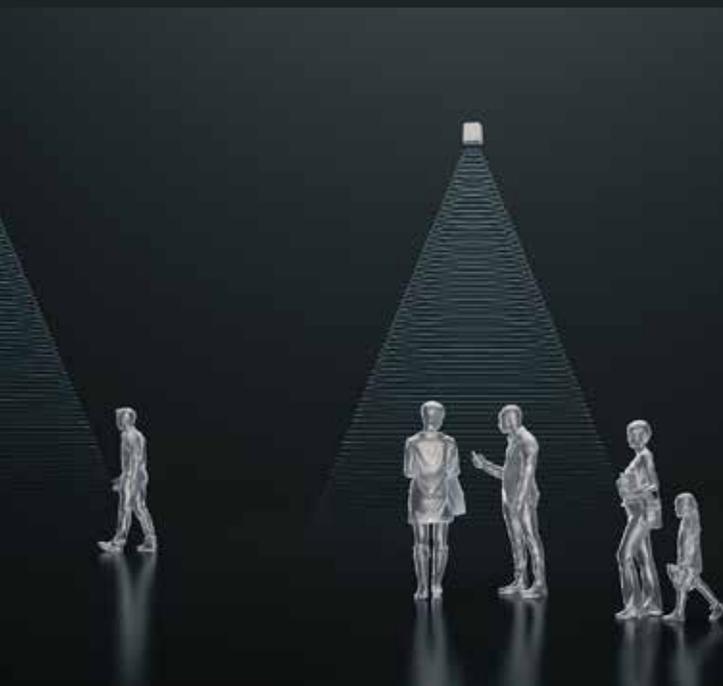

Whatever your style, our concept fits perfectly

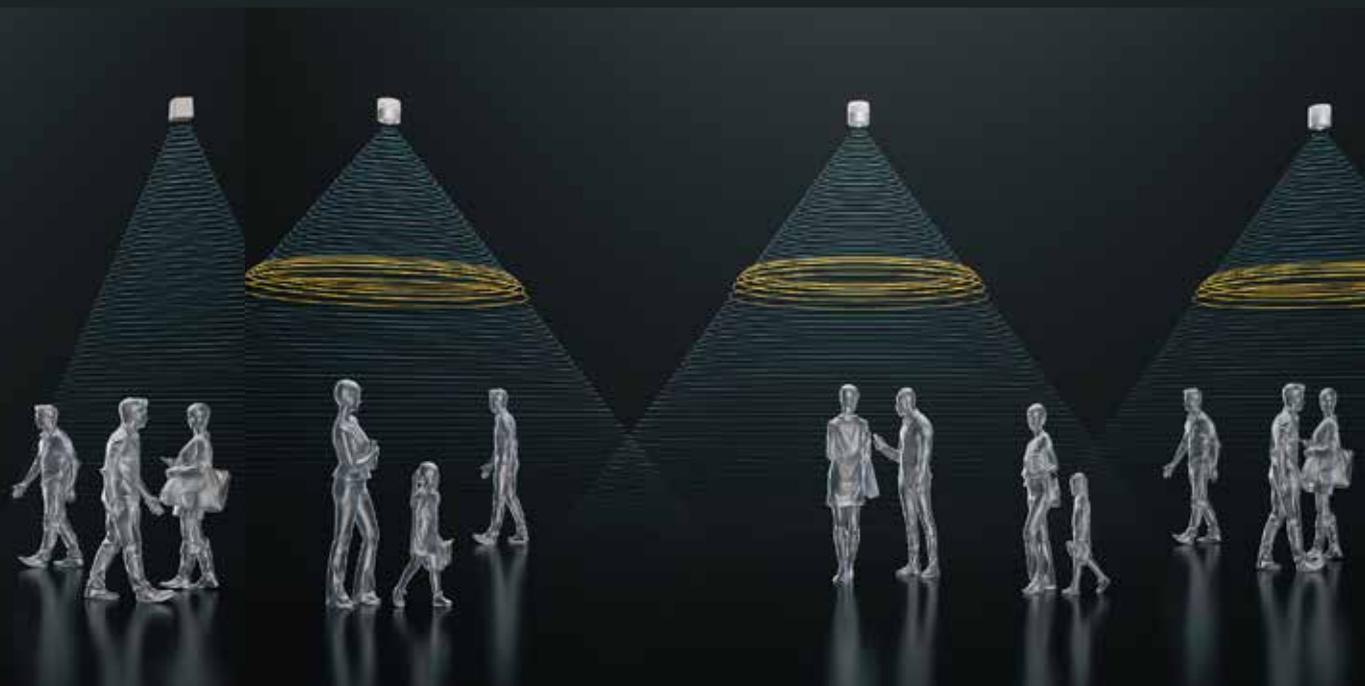

Sustainable

Recyclable and reusable packaging, carbon-neutral transport, solar power generation are only some of the actions we take

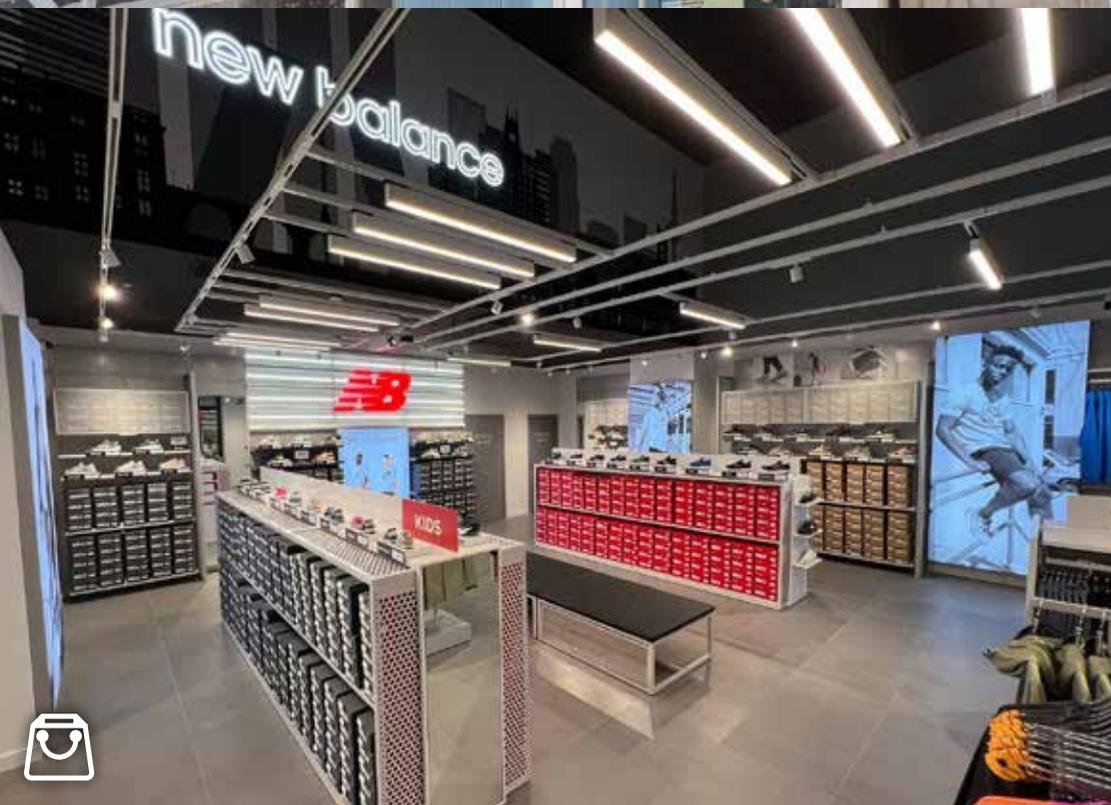

Standard speakers

NewTec 360° speakers

„Ingeniously innovative speakers for our IKEA sound concept!“
Ikea

„We're thrilled by the fast and flexible use of the NewTec solution. Design and sound quality speak for themselves!“
Puma

„Great sound and a great partner for our stores.“
Karl Lagerfeld

„Better than in my own living room!“
